

## **OBSIDIAN VEIN** **X5380055**

This is a high-gloss, dark silver vein/texture coating with black inset. This product requires a clear topcoat for exterior use and frequent handling. We recommend Super Mirror Clear or Super Durable Wet Clear for the best finish.

Vein and Texture coatings are a great option to use for hiding imperfections on the part you are coating (small scratches, small craters, etc.).

When applying Vein powders, we recommend laying the powder thick to achieve the best vein finish and to avoid light spots once fully cured.

### **FEATURES:**

- High-hiding characteristics
- Great exterior durability (with clear topcoat)
- Vein/Texture finish
- High gloss
- Salt Spray: 1000 hours pass (ASTM B-117)
- Recommended Bake: 15 Minutes @ 375°F Metal Temperature
