

SADDLE BLACK **X2410065**

This is a low-gloss, deep black coating with a leather-like texture finish.

Texture coatings are a great option to use for hiding imperfections on the part you are coating (small scratches, small craters, etc.).

FEATURES:

- High-hiding characteristics
- UV stable (does not require a topcoat)
- Leather-like texture finish
- Great exterior durability
- Very low gloss (5-10% gloss)
- Salt Spray: 1000 hours pass (ASTM B-117)
- Recommended Bake: 10 Minutes @ 400°F Metal Temperature
